Tap and pay is here to stay

Great news! We're transitioning to a new payment solution and we'll be installing new credit card terminals on all our buses.

Why?

1. Our pilot project in partnership with Desjardins Group is coming to an end.
2. We want to make sure the new systems will be compatible with your cards and smartphones for as long as possible.
3. With the new terminals, we will be able to introduce debit card payments in 2022. Yes, you read it right!
