

The STL launches the 360, a new bus route to promote Laval's attractions

The new bus route will provide service to hotels and business partners surrounding the Centropolis and the Carrefour Laval as of January 19. This new service is an excellent means of positioning Laval as a unique destination!

"Visitors, Lavalers and Montrealers are all invited to tour and explore Laval by bus!"

David De Cotis
President of the STL's Board of Directors

A GROUP PROJECT

The 360 bus route will provide service to parts of downtown Laval located north of Boulevard Saint-Martin. Created in collaboration with Laval hotels, the Cosmodome, partners from the Centropolis, the Carrefour Laval and Tourisme Laval, the bus line will highlight the value of some of Laval's many points of interest.

This route is designed to meet the travel needs of the many visitors staying at hotels who do not have access to a vehicle to take them to the many areas of interest around the Centropolis and the Carrefour Laval. The route will also provide residents of Laval and Montreal with access directly from the Montmorency Metro station to points of interest. This is yet another demonstration of our common sense approach.

AN EVOLVING BUS SERVICE

The new bus route will be inaugurated as of January 19. A follow-up will be conducted to evaluate the level of interest in this service and of the frequency and points of interest. These stops will be shown on our regular displays. The STL regular fares will apply to this new service.

The schedule will change in accordance with the seasons.

January 9 to June 19, 2016: Saturday and Sunday service

June 25 to August 26, 2016: Seven day a week service

August 27 to December 31, 2016: Saturday and Sunday service

WINTER SAFETY TIPS

The arrival of winter requires a few changes to our travel habits. The STL invites you to adopt safe and sensible behaviours this season.

- Allow yourself more time than usual to get to your bus stop.
- Cross the street in suitable places.
- Keep away from the bus as it arrives. The bus driver needs more space to manoeuvre in icy or snowy conditions.
- To enable quick boarding, have your OPUS card ready for presentation.
- To avoid slipping, do not stand on snowbanks to wait for the bus. Proceed to the clearest spot for boarding.
- During snowstorms, stay informed about delays by using STL Synchro.

- For more information, visit stl.laval.qc.ca or contact our Customer Contact Centre at 450 688-6520, and stay in touch with STL Synchro.
